Submitted to the Principal:

Sub: Anti ragging awareness talk-Report submission

An awareness talk on Anti ragging was given by Mr.Hariharan ,Inspector of Police , Perumalpuram Police station to IIIrd and IVth year students (100 boys) on 21/11/2024.

The definition of Ragging is harmful practice that not only damages the mental and physical health of the victims but also affects the very essence of a harmonious academic environment. Ragging involves the bullying and humiliation of freshers, typically by seniors, and can take many forms – from mild teasing to extreme violence. It often includes verbal abuse, physical harassment, and psychological torment, with long-lasting effects. The victims of ragging often feel isolated, fearful, and vulnerable. In some extreme cases, ragging has led to depression, self-harm, and even suicides.

What many fail to realize is that ragging does not only harm the victims but also the perpetrators. It perpetuates a toxic culture of power imbalance, where seniors believe that they have the right to dominate newcomers. This mentality creates an unhealthy environment that destroys the spirit of camaraderie, trust, and mutual respect, which should be the foundation of any educational institution.

It is time we understand that ragging is not a form of bonding, but a destructive and harmful practice. Educational institutions should be a place of learning, personal growth, and respect for one another. Instead of indulging in ragging, seniors should become mentors who guide and support their juniors in adapting to the new environment. Institutions must take strict action against ragging, ensuring that those involved face appropriate consequences.

I urge all of you, especially the senior students, to rise above this harmful tradition and create a safe, inclusive, and positive environment for everyone. Let's treat each other with respect, kindness, and empathy. Our colleges should be places where students feel empowered and free from fear, where they are encouraged to explore their potential and build lifelong friendships.

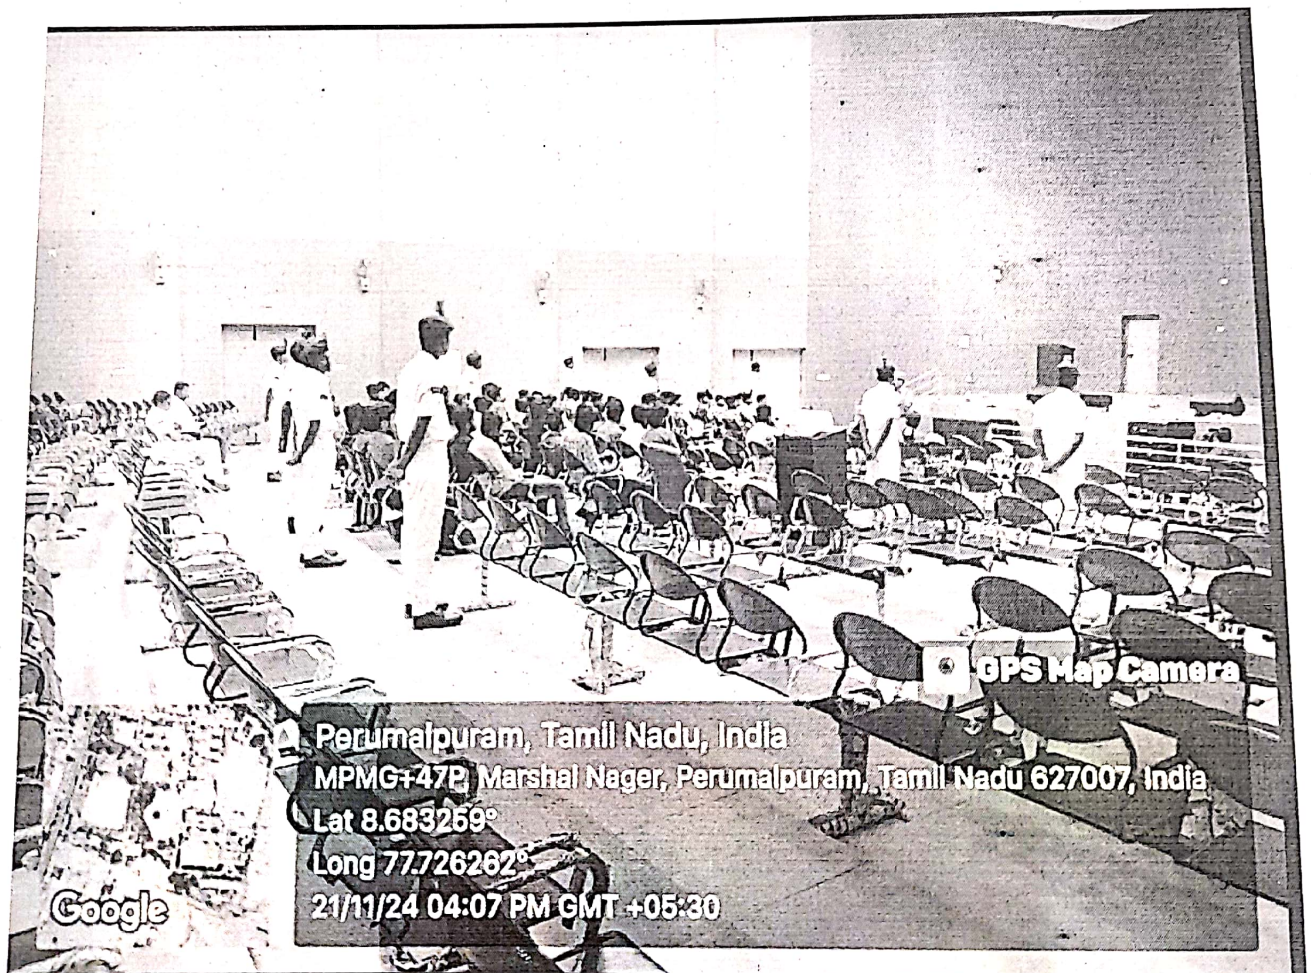

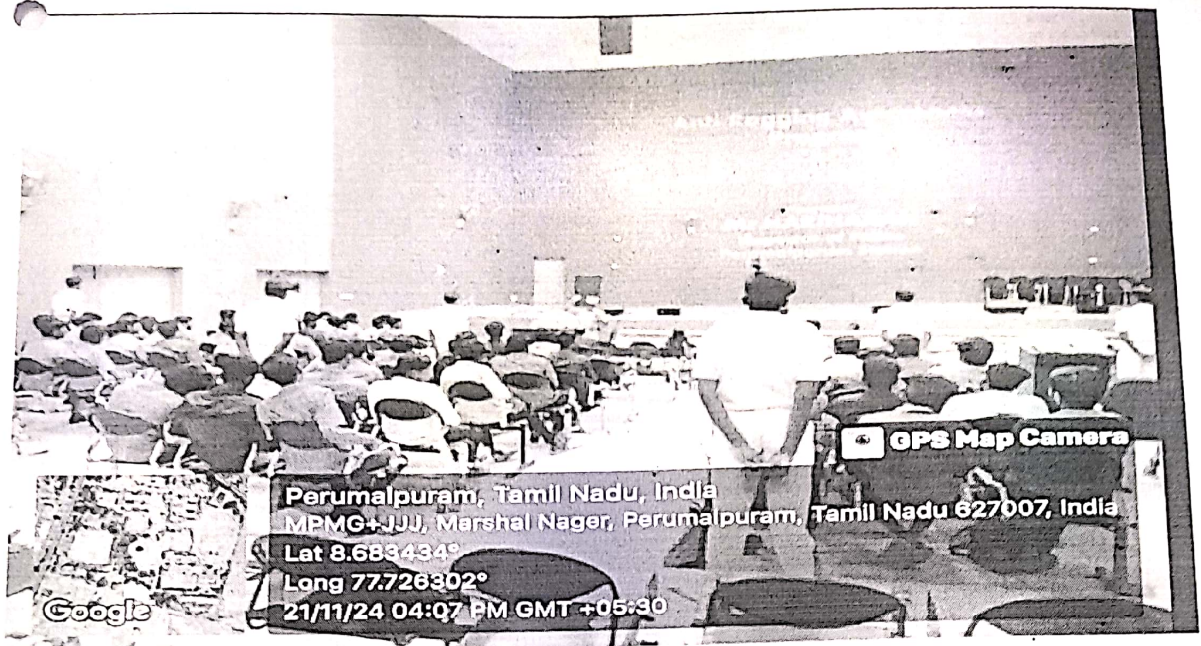

Together, let us work towards eliminating ragging and promoting a culture of respect and understanding. Tirukkural was quoted to lead a good and harmless life.
